TECH TRENDS IN EHS

SPEAKERS:

TREVOR BRONSON

—EHS INDUSTRY ANALYST
VERDANTIX

In recent years the EHS landscape has undergone a significant digital transformation, with companies embracing technology to streamline operations and simplify complex processes.

But in the next few years, we'll begin to see more organizations embrace a new wave of innovation to drive participation and eliminate incidents.

Trevor Bronson will discuss mobile applications, Internet of Things, the cloud, and other emerging technology trends that will shape our approaches to EHS management.

1:45 PM—2:30 PM

LEADERSHIP TALKS: FOX NETWORKS GROUP & DUPONT

SPEAKERS:

DAVIDE VASSALLO

—GLOBAL MANAGING DIRECTOR
DUPONT

JOHN MOORE

—VP, ENVIRONMENTAL, HEALTH & SAFETY
FOX NETWORKS GROUP

Ever wondered how some of the world's safest companies build strong cultures and high performance EHS programs?

Join Davide Vassallo from DuPont Sustainable Solutions and John Moore from Fox Networks Group for a fireside chat as they share how they've achieved safety excellence at their organizations.

They'll discuss the importance of safety no matter what industry you're in and share how they secured management commitment, embraced technology and harnessed the power of their EHS data to improve outcomes.

2:40 PM — 3:10 PM

LEADING A PARTICIPATION CULTURE

81% of EHS leaders say that increasing worker participation in safety is part of their current strategy to improve safety performance.

Yet, only 27% of EHS professionals say that everyone in the organization is actively involved in the safety process.

In this session, we'll delve into how you can build and foster an engaged safety culture using the participation-based safety methodology and explain how to effectively measure participation in your safety program.

3:10 PM — 3:40 PM

LEVERAGING THE POWER OF EHS DATA

It's no secret that data is now an integral part of every business function – EHS is no exception.

But how do we unlock the power of our data to make better decisions that will ultimately improve our safety outcomes? In this session, we'll walk through best practices for data collection and analysis, tips to turn your data into actionable insights, and share why your EHS data strategy needs to incorporate both leading and lagging indicators.

3:40 PM — 4:10 PM

EMAIL + NETWORKING BREAK

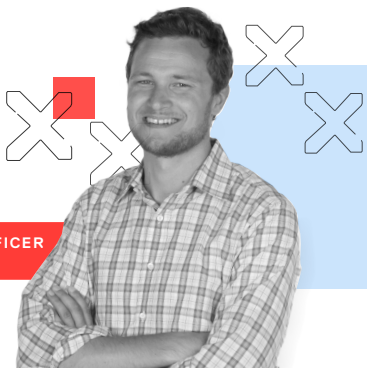

4:10 PM — 4:40 PM

THE NXT CHAPTER: THE ROADMAP TO SAFETY EXCELLENCE

SPEAKER:

ADRIAN BARTHA

—CHIEF EXECUTIVE OFFICER
eCOMPLIANCE

From artificial intelligence to preventative analytics, the future of EHS technology is poised to fundamentally alter how we manage safety across our organizations.

It's time for forward-thinking EHS leaders to become early adopters and leverage this technology as a competitive advantage.

In this session, eCompliance's CEO Adrian Bartha will share what EHS leaders can do now to ready and rally their teams behind these emerging EHS innovations. Plus, you'll get an insider's look at where the eCompliance platform is heading over the next 12 months.
